**SUPPLEMENTAL RESPONSE TO OCTOBER 1, 2003 OFFICE ACTION**

Sir:

This paper supplements the Response filed on April 1, 2004 to the October 1, 2003 Office Action.

For the reasons discussed below, we request that the amendments to the specification requested in the April 1, 2004 Response **not** be entered, and instead, the amendments to the specification requested herein be entered.

The directions to amend the specification given in the April 1, 2004 Response are in many instances (a) inaccurate as to page and/or line numbers due to use of a copy of the specification printed after the application was filed and (b) duplicative of amendments made pursuant to the Preliminary Amendment filed June 22, 2001.

Also, the Remarks section of the April 1, 2004 Response references inaccurate line and/or page numbers to the specification, and this Supplemental Response provides (in the Remarks section starting on page 20) correct page and line numbers for references to specification made in the Remarks section of the April 1, 2004 Response.

Amendments to the specification begin on page 2 and Remarks begin on page 20 of this paper. The claims listing in the April 1, 2004 Response is duplicated here, starting on page 9. Drawing amendments requested in the April 1, 2004 Response are duplicated on page 19.
